Availability:	Immediate

Company Overview

ZutaCore is a global organization focused on revolutionizing cooling solutions for the data center industry. We are a dynamic and rapidly expanding startup company specializing in the development of innovative direct-on-chip cooling systems. Our cutting-edge technologies address critical needs in the thriving data center market. We foster a purpose-driven culture built on passion, optimism, and a genuine commitment to our customers and each other.

At ZutaCore:

- We share a compelling vision and uphold a strong company culture.
- We are unwavering in our commitment to delivering high-quality products and services.
- We consistently set the industry standard for exceptional service.
- We believe that with determination and creativity, anything is possible.
- We operate as a unified team, fostering a culture of collaboration and winning.
- We take proactive action and assume accountability for our responsibilities.

Responsibilities

- Technical responsibility for power circuit characterization, design, simulation, and validation.
- Provide solutions in the field of electricity, instrumentation, and control.
- Collaboration with the various groups and disciplines inside and out (subcontractors/manufacturers).
- Supplier support during prototype production.
- Generate design documentation and electrical drawings.
- Experience in PLC controllers – advantage

Qualifications

- Practical engineer with 3 years experience in the above areas or B.Sc. in electrical engineering with 2-3 years, experience in low voltage EE design.
- Strong technical communication skills (written and verbal)
- A strong level of self-motivation, responsibility, and teamwork
- Professional English – both verbal and script

Office: 972-8-6451455 / Fax: 972-8-9338820 / Email: info@zutacore.com / www.zutacore.com
5TH Tamar St., Sapirim Industrial Park, 7916700, Israel

- Ability to multi-task in a fast-paced and variable environmentWillingness to continuously learn and exceed expectations.
